The real truth is that the regulation retail selling price is about the figure which other deal-rehere pay for their goods. We can give good substantial shoes at a price which other Decatur dealers will charge you coming in all the time. No old shop worn goods. We are determined to make this retail business larger than in any previous year. It is the volume of trade, not the size of the profit that we are after. Come yourself and tell your neighbors to come to us for everything in the shoe line. We will save you big money.
